To do this you will have the possibility to search by name, by PNR, by date (day, month or year) and also by the status of the group. Remember that requests are not shown in stock, just groups that LATAM approved and that can be found in the following states:

- **Quoted:** Your group request has been approved by LATAM, so it goes into the stock and awaits the signature of the contract whereby the conditions are accepted.
- **Quoted canceled:** Groups in which the contract was not signed, so they were canceled after the expiration of the TL.
- **Confirmed:** Groups that have a signed contract.
- **Canceled:** Groups that you have canceled in full.
- **Issued:** Groups issued once the deadline established by LATAM has arrived.
