

Fare Basis Standardisation

In order to simplify our processes LATAM has standardized the fare basis.

You will notice that at the moment, in our private fares, 2 fare basis are co-existing and from the 31/Jul onward only the new fare basis structure will be live.

For existing bookings, issued from 1st August onward, please make sure to update the fare basis before issuance.

Please note that there will be no impact on the fares in respect of this change.

This change will allow us to identify what type of fare was used and the point of sale where it was issued.

After the change our new fare basis will look like the following:

Booking Class	Season	Product	Fare Family	MIN, AP, POS
Q	L	E	PP	D8B

Please contact our sales support team in case of any doubts or questions.

Happy Selling
