

Travel Agent's guide for LATAM Direct Groups and NO IATA Agencies

Global Sales
Support

Mayo 2022

¡HELLO!

We present the new version of the LATAM group management website, where through this tool, you can request your groups directly from us in an organized manner, make requests for changes, and maintain common and transparent control for this product.

Besides that, you will be able to manage your stock, such as reduce spaces, modify certain aspects of your departures or add passengers, in a reliable way for your group business with LATAM.

Come in and discover it!

Direct Groups and NON-IATAS

A direct group is requested by an agency without an IATA code or by a company that wishes to issue an independent group.

In case of direct group:

- LATAM proceeds with the issuance;
- A deposit is required to guarantee the group;
- Issuance fee will be charged.

To communicate with the groups team you can access the chat located at www.latamtrade.com or on the Groups website.

Information about prepayment amounts and issuance fees are on the “Prepayment” page.

In the top menu you will find the following options:

Home : Here you will have summarized the information regarding groups where status is pending contract signature (pending confirmation), groups that will shortly enter the penalty period, groups for which you should already make the reservation claim and groups with TL of nearby emission.

Requests: In this menu you can see all the requests made and their status (new groups, modifications, reductions, addpax...).

Stock: Here you can access all the groups that have been approved and manage them.

New Group: You can request new groups from this option.

Reports: From here you can download the information of your groups in Excel format.

Change Password: From this option you can change your password.

Logout: If you have already finished your management, you can exit the web by pressing this option.

Home

- **Pending Confirmation:** Group PNRs where contract signing is still required for them to change to confirmed status. By clicking on the “search” button within this option you can access them directly.
- **Upcoming Penalties:** Groups that will enter a penalty period within two days. By clicking on the “search” button you can access them directly. This will allow you to carry out better management and avoid oversights that may incur fines.
- **Pending issues:** Clicking on the “search” button, all the PNRs whose emission TL is close, in the next two days, will be detailed.

Requests

In this section of the website you can view all your requests and their status (new groups requests, modifications, additional seats, reductions and contract approvals).

- **Approved:** The new group or the request made has been approved by LATAM. Clicking on the word “Approved” will take you directly to the stock where you can view all the group's information.
- **Refused:** The request has been refused by LATAM, in the comments field you can review the reason.
- **Pending:** Your request is pending review by LATAM.

In the stock management module you can access all the groups you have with LATAM. To do this you will have the possibility to search by name, by PNR, by date (day, month or year) and also by the status of the group. Remember that requests are not shown in stock, just groups that LATAM approved and that can be found in the following states:

- **Quoted:** Your group request has been approved by LATAM, so it goes into the stock and awaits the signature of the contract whereby the conditions are accepted.
- **Quoted canceled:** Groups in which the contract was not signed, so they were canceled after the expiration of the TL.
- **Confirmed:** Groups that have a signed contract.
- **Canceled:** Groups that you have canceled in full.
- **Issued:** Groups issued once the deadline established by LATAM has arrived.

2. Management of the group in stock

Stock

Once you have the group confirmed, the requirements you need to make related to it, you can do it through the Web generating requests that will be accepted or rejected by a Group Analyst.

You can:

- See your group to review the TLs, approved Net Fares, PNR, farebasis, etc.
- Request reductions;
- Request total cancellation;
- Modify to be able to enter requests for protective flights in case of having affected flights;
- Request additional passengers;
- Request splits.
